PRAISE FOR GOV. DURBIN

LETTER TO CHIEF EXECUTIVE OF INDIANA

President Commends His Action Regarding Recent Lynching—Says Mob Law is Forerunner of Anarchy.

Oyster Bay, N. Y., Aug. 10.—In a letter, the publication of which was authorized yesterday, President Roosevelt commends Governor Durbin of Indiana for the attitude he assumed recently respecting lynching. The president also embraces the opportunity to express his own views in reference to lynching and mob violence generally, pointing out that mob violence is merely one form of anarchy, and that anarchy is the forerunner of tyranny. The president vigorously urges that the penalty for crimes that induce the resort to lynching shall be applied swiftly and surely, but by due process of the courts, so that it may be demonstrated "that the law is adequate to deal with crime by freeing it from every vestige of technicality and delay."

President Roosevelt's letter in full to Governor Durbin follows:

"Oyster Bay, Aug. 6.—My Dear Governor Durbin: Permit me to thank you as an American citizen for the admirable way in which you have vindicated the majesty of the law by your recent action in reference to lynchings. I feel, my dear sir, that you have made all men your debtors, who believe, as all far-seeing men must, that the well-being, indeed the very existence of the republic depends upon that spirit of orderly liberty under the law, which is as incompatible with mob violence as with any form of despotism. Of course, mob violence is simply one form of anarchy, and anarchy is now, as it always has been, the handmaiden and forerunner of tyranny."

REFLECTS HONOR ON STATE.

"I feel that you have not only reflected honor upon the state, which, for its good fortune has you as its chief executive, but upon the whole nation. It is incumbent upon every man throughout this country not only to hold up your hands in the course you have been following, but to show his realization that the matter is one of vital concern to us all."

"All thoughtful men must feel the gravest alarm over the growth of lynching in this country, and especially over the peculiarly heinous forms so often taken by mob violence in which colored men are the victims, on which occasions the mob seems to lay most weight, not on the crime but on the color of the criminal. In a certain proportion of these cases the man lynched has been guilty of a crime horrible beyond description—a crime so horrible that as far as he himself is concerned he has forfeited the right to any kind of sympathy whatever. The feeling of all good citizens that such a heinous crime shall not be hideously punished by mob violence is due, not in the least to sympathy for the criminal, but to a very lively sense of the train of dreadful consequences which follow the course taken by the mob, in exacting inhuman vengeance for an inhuman wrong. In such cases, moreover, it is well to remember that the criminal not merely sins against humanity in an inextinguishable and unpardonable fashion, but sins particularly against his own race, and does them a wrong far greater than any white man can possibly do them."

"Therefore, in such cases, the colored people throughout the land should, in every possible way, show their belief that they, more than all others in the community, are horrified at the commission of such a crime, and are peculiarly concerned in taking every possible measure to prevent its recurrence and to bring the criminal to immediate justice. The slightest lack of vigor, either in denunciation of the crime, or in bringing the criminal to justice is itself unpardonable."

"Moreover, every effort should be made, under the law, to expedite the proceedings of justice in the case of such an awful crime. But it can not be necessary in order to accomplish this to deprive any citizen of those fundamental rights to be heard in his own defense which are so dear to us all, and which lie at the root of our liberty. It certainly ought to be possible by the proper administration of the laws, to secure swift vengeance upon the criminal; and the best and immediate efforts of all legislators, judges and citizens should be addressed to securing such reforms in our legal procedure as to leave no vestige of excuse for those misguided men who undertake to reap vengeance through violent methods."

"Men who have been guilty of a crime like rape or murder, should be visited with swift and certain punishment, and the just effort made by the courts to protect them in their rights should under no circumstances be perverted into permitting any mere technicality to avert or thwart their punishment. The substantial rights of the prisoner to a fair trial must, of course, be guaranteed, as you have so justly insisted that they should be; but, subject to this guarantee, the law must work swiftly and surely, and all the agents of the law should realize the wrong they do when they permit justice to be delayed or thwarted for technical or insubstantial reasons. We must show that the law is adequate to deal with crime by freeing it from every vestige of technicality and delay."

INNOCENT PARTIES SUFFER.

"But the fullest recognition of the horror of the crime, and the most complete lack of sympathy with the criminal, can not in the least diminish our horror at the way in which it has become customary to avenge these crimes, and at the consequences that are already proceeding therefrom. It is, of course, inevitable that where vengeance is taken by a mob it should frequently light upon innocent people; and the wrong done in such a case to the individual is one for which there is no remedy. But even where the real criminal is reached, the wrong done by the mob to the community itself is well nigh as great. Especially is this true where the lynching is accompanied by torture. There are certain heinous rights, which, when once seen, can never be wholly erased from the mental retina. The mere fact of having seen them implies degradation. This is a thousandfold stronger when, instead of merely seeing the deed, the man has participated in it. Whoever in any part of our country which has ever taken part in lawlessly putting to death a criminal by the dreadful torture of fire, the participant must forever after have the awful spectacle of his own handiwork seared into his brain and soul. He can never again be the same man."

TORTURE PRECEDENT SPREADS.

"This matter of lynching would be a terrible thing, even if it stopped with the lynching of men guilty of the inhuman and heinous crime of rape; but, as a matter of fact, lawlessness of this type never does stop, and never can stop, in such fashion. Every violent man in the community is encouraged by every case of lynching in which the lynchers go unpunished to take the law into his own hands whenever it suits his own convenience. In the same way the use of torture by the mob in certain cases is sure to spread until it is applied more or less indiscriminately in other cases. The spirit of lawlessness grows with what it feeds on, and when mobs with impunity lynch criminals for one cause they are certain to begin to lynch real or alleged criminals for other causes."

MACEDONIANS ISSUE APPEAL

TO THE POWERS FOR RELIEF FROM OPPRESSION

Christians Will Institute General Uprising Against the Turk and Fight Till Their End is Attained.

Sofia, Aug. 10.—Delegates here of the Macedonian committee addressed the following appeal to each representative of the powers:

"The Musselmans' systematic persecution has compelled Christians in Macedonia and the Vilayet of Adrianople to institute a general rising. They have had recourse to this extreme measure after exhausting all pacific means to secure intervention of Europe to enforce provisions of the Berlin treaty. At the present moment intervention is the only means of remedying the evil and stopping bloodshed. Sporadic efforts of the powers to secure reforms having failed, they resulted merely in recrudescence of Turkish fanaticism and government oppression."

"It is evident reform measures to be efficacious must include appointment of a Christian governor general of Macedonia, some one who has never held office under the port, who must be independent of the Turkish government in the exercise of his functions, and further appointment by the powers of a joint, permanent administrative board with full powers to deal with any disturbance."

"Having published the foregoing facts to the civilized world and made known the causes which have driven Macedonians to despair, the committee for Macedonians now in arms proposes to continue the fight till the object of their uprising has been attained."

Representatives of the Macedonian revolutionary committee have published a statement saying that the number of insurgents in the district of Monastir is 8,000 and that they are armed with rifles purchased in Greece. It also states Aug. 2, 600 insurgents destroyed three detachments of Turkish troops, numbering 100, and attacked the town of Kitchovo, but failed to occupy it. Insurgents, however, whose inhabitants had come to the assistance of the garrison of Kitchovo. The statement further says three Christian villages, Smilevo, Kroucho and Bolno, near Monastir, have been completely destroyed by Turkish troops.

Rome, Aug. 10.—It is stated here that there has been an exchange of views between the powers regarding the situation in Macedonia and that apparently the powers have decided to support Austria and Russia in efforts to re-establish peace.

"LIBERTY OR DEATH."

Constantinople, Aug. 10.—According to mail advices from Monastir the insurgents who recently occupied the town of Krushovo, twenty-three miles north of Monastir, numbered 800. They killed the garrison consisting of fifty-two soldiers, dynamited and burned government buildings and then hoisted on a hill overlooking the town a red flag bearing on one side a line with the inscription, "Death or liberty," and on the other the words, "Courage, brethren." The rebels were still in possession of the town when letters were sent off. Practically the whole country north of Monastir is in revolt.

PARIS SWINDLING CASE

Mme. Humbert Takes an Active Part in Court Proceedings—Creates Several Scenes.

Paris, Aug. 10.—The trial of the Humbert family on charges of forgery and swindling was resumed to day.

Madame Humbert continued to dominate the proceedings and created several scenes when the court attempted to examine other members of the family. Frederick Humbert testified he had devoted most of his time to art and poetry, leaving the entire financial operations to his wife. Regarding the insurance concern which the Humberts started and in the crash of which thousands of poor people lost their savings, he maintained the operations were conducted in good faith and that public prejudice aroused against the family brought about the failure.

During the examination of a witness Madame Humbert interrupted, protesting her innocence, and declared she had found the Crawfords, but not their millions and that at the close of testimony in this case she would tell their whereabouts. "They have made a terrible revelation to me," she said. "I have told Maître Labori all. He knows the real name of the Crawfords, for they do not call themselves by the name of Crawford. No one will suffer any loss. I will pay every one. Perhaps the Crawfords may not appear, but they exist. It is only their name that does not exist."

HAVE TALKING MATCH

Jeffries and Corbett Bonst of Their Prowess and Expect a Short Fight.

San Francisco, Aug. 10.—The latest news from Harbin Springs is to the effect that Champion Jeffries now weighs close to 220 pounds, but does not appear to be fleshy. Trainer Delaney is confident that the mill with Corbett will be a comparatively short one. "The champion," he said to day, "does not intend to permit the bout to drag along to an endless length. Jeffries will fight with such strength and speed that he will early bring Corbett down to his level in the question of agility. When he once gets him there the battle can be considered as over."

When this statement was repeated to Corbett the latter said: "So Jeffries expects to make the fight a short one, does he? Well, I hope he tries to, for if he does he will find me on hand. He will not have to chase me either, for I have invented a short arm defense which I believe will be an enigma to him. I am much stronger now than I have ever been and firmly believe I will be able to put force enough in my blows to knock Jeffries down and put him out."

ROOT WILL NOT RESIGN

President Roosevelt Denies Report Published Regarding Secretary of War.

Oyster Bay, Aug. 10.—The attention of the president this evening was directed to a circumstantial statement published this afternoon that Secretary Root expected soon to retire from the cabinet and be succeeded by Governor Taft of the Philippines. It can be said there is no definite foundation for the story. The president, since the first intimation many months ago of Root's possible retirement, has hoped and still hopes he will remain in the cabinet for a long time yet. He believes the secretary certainly will remain through the coming winter and probably a much longer time.

IRISH LAND BILL

London, Aug. 10.—Report on amendments to the Irish land bill was read to night and the bill probably will be passed to third reading to-morrow. John M. Redmond, Nationalist, said to the Associated Press to night: "The Irish land bill may now be regarded as past all danger. We may look upon it as an accomplished fact. If it works as it is confidently hoped it will there is no question it will effect a revolution in the condition of Ireland. A satisfactory home rule bill appears more probable to day than the land bill which is just about to be passed looked a year ago. I feel quite sure the national movement is now on the high road to complete success."

Rome, Aug. 10.—Pius X. had another fatiguing day, as he received all the delegations which had come to Rome to attend the coronation ceremonies. PRINTERS ARE IN SESSION

Forty-Ninth Annual Convention Opens

International Typographical Union Gets Royal Reception in Washington—Reports of President and Secretary.

Washington, Aug. 10.—Secretary Cortelou, Public Printer Palmer, Chief of the Weather Bureau Willis Moore and other prominent men were present when the forty-ninth session of the International Typographical union opened here to day. A majority of the 215 delegates were also in attendance. Prayer was followed by welcome addresses and responses.

Mr. Moore, who is a former printer, spoke as one of the craft, congratulated the union upon its strength, upon the progress made and influences exerted. He spoke also of President Roosevelt as a friend of labor and congratulated the convention upon that fact.

Routine business followed, members taking the usual pledge not to become members of any other organization inimical to the interests of the typographical union.

In his annual report President James M. Lynch said the past year had been a notable one not only for the International Typographical union but for organized labor in general. The report dwelt on benefits accruing from organization and urged adoption of some plan whereby isolated printers working in localities supporting from one to six brother artisans, but not enough to warrant organization, may be reached. Lynch suggested such men be attached direct to the parent body. The report expressed regret at the tendency on the part of trade unionists to make light of unions of employers and questioned whether it would not be better to display a tolerant spirit toward them in the hope of establishing friendly relations.

Lynch observes work for the future lies in extension of the work and scope of the International Typographical union by added benefits to its members in the way of financial relief and renewal of demand for better sanitary conditions of the work room, insistence on proper instructions for apprentices and advancement of the union label. The report referred to the arbitration agreement with the American Newspaper Publishers' association, which has been in force for over to years, and said all but two disputes had been settled in a fairly satisfactory manner and there was much better general feeling existing between the two organizations.

The report of Secretary-Treasurer Bramwood showed receipts for the fiscal year, including balance in treasury July 1, of \$38,000, amounted to \$22,000; expenditures, \$174,000, leaving a cash balance in the treasury on May 1 of \$49,000, an increase of \$11,000. The report says the growth in membership has been in keeping with advances made in other directions.

IS SOUTHERN WOMAN

Identity of Would-be Suicide Discovered—Brother Under Arrest in Montgomery.

Montgomery, Ala., Aug. 10.—Mrs. Henry Glover, who attempted to commit suicide in Chicago last night, formerly lived here under the name of Marie Gordon. Her real name is said to have been Mary Lytle. It is said she is a daughter of Evande Lytle, of Murphreesboro, Tenn., granddaughter of Gen. William Lytle and niece of Mrs. Carter B. Harrison, of Murphreesboro. She left Montgomery for Chicago two weeks ago.

Under instructions from Chief O'Neill of Chicago William Lytle, brother of Marie Lytle, alias Marie Gordon, was arrested here to night. Instructions from Chicago stated simply that Lytle was wanted there on charge of assault to murder. Lytle denies having any knowledge of the shooting of Marie Gordon and refuses to return to Chicago without formal requisition. Lytle made no effort to conceal his identity, having told inmates of the house that he was a brother of Marie Gordon.

Chicago, Aug. 10.—William R. Lytle is wanted by the Chicago police in connection with the shooting of Jacob Smith, a negro porter in a south side resort. A man known as Lytle visited the place in company with Marie Gordon, or Marie Lytle, and as they were leaving the place the man quarreled with the negro and, it is charged, shot him. Later the Gordon woman returned to the Auditorium Annex and there attempted suicide by shooting. At a late hour to night she was reported very low.

A DOUBLE TRAGEDY

Prominent Buffalo Man Shoots His Wife and Then Turns Weapon on Himself.

Buffalo, Aug. 10.—Kent T. Stowe shot his wife Pauline dead in their bed room at their home in this city to day. Stowe then turned the revolver against himself and sent a bullet through his head, dying to night. The tragedy occurred shortly after the pair arose. Mrs. Stowe had attended to her infant daughter, after which she took the baby down stairs, giving it over to his mother's care. Returning Stowe shot his wife through the back of the head, killing her instantly. He then shot himself.

Police can find no motive for the crime. The married life of the pair, their parents declare, was happy. The family physician insists Stowe was temporarily insane. He had suffered from malaria fever and at times was much depressed. Stowe was a graduate of the Boston Institute of Technology and was employed by the Lake Shore railway. He was a grandson of James Tillinghast, once vice president of the New York Central railroad.

FRINDS OF THE GOVERNOR

Marking the Governor's State Campaign, Friends of the Governor are holding a series of public meetings to raise funds for the campaign.

Springfield, Aug. 10.—The most important political event of the week was the conference at the executive mansion between Governor Yates and a number of his close political friends. As to what took place at his conference and what plans were discussed, neither the governor nor any of those who were in attendance will say. Of course the political situation in Illinois was the principal topic of discussion. It is understood that the question of the governorship was gone over in detail, but that no definite plan of action was agreed upon or even outlined. But few of Governor Yates' closest political friends and advisers were present. It is said that other conferences are to follow until all sections of the state have been represented and all of the governor's political advisers called in. When all have been heard something in the way of a definite announcement upon the subject of his candidacy for the nomination for governor to succeed himself may be expected. At present the governor has nothing to say.

His friends, however, are not so close-mouthed. They say that the governor has nothing to fear from any of the candidates who have been mentioned in connection with the nomination for governor and regard the springing of so many names in connection with the nomination as a bluff, put forward to hold a number of large and influential counties on the "favorite sons" plea.

HOPKINS AND CULLOM'S PLANS.
The rumor that Senators Hopkins and Cullom are trying to get together on a candidate for governor will not down. It came to the surface again this week and is being industriously circulated. The friends of the state administration, while neither denying or affirming the rumor, say it is not worrying them in the least. They point to the fact that Senator Hopkins has openly and repeatedly declared his allegiance to Governor Yates and say he will never enter into any alliance looking to the nomination of a governor for governor in 1904 that is not entirely satisfactory to the present incumbent and which does not meet with his approval. They say that any agreement on the part of Senator Hopkins would be the acme of political ingratitude and Senator Hopkins has never been charged with ingratitude of any sort.

It was thought that something of a definite nature would be heard from ex-Governor Fifer during the week, but it did not come. He is still up in Michigan and nobody sufficiently informed has appeared on the scene to say whether the ex-governor will seek the nomination for governor next year or not. Some, who pretend to know, say he will, while others are equally confident that if he can secure a reappointment on the interstate commerce commission he will be contented to stay out of state politics. Several theories in regard to the ex-governor's reported candidacy are being advanced. One is that he is being put to the front by the Cullom faction in order to hold the seventeenth congressional district. Another is that his candidacy is for the purpose of keeping Railroad Commissioner Neville from carrying McLean county for Yates in case the latter becomes a candidate. Still another is that he wants a reappointment on the interstate commerce commission and that his candidacy for governor is really a candidacy for reappointment. Fifer has many friends throughout the state, who admire him for his ability, but his candidacy to again occupy the executive chair is regarded as very unlikely at the present time. Should he enter the race it is predicted that he will keep all the other candidates guessing.

DENISEN'S FRIENDS ACTIVE.
The friends of State's Attorney Denesen continue to be active in getting up ward meetings in Chicago for the endorsement of their candidate. They say they are in the habit of staying until the last ballot is taken in the state convention and that they will not be satisfied with untraced delegates from any of the wards in Chicago, in which they claim they are particularly strong. The leaders in Chicago—the men who control blocks of delegates—have not as yet been heard from in any great extent. It is said that State Treasurer Buise will continue silent on the governorship question until he feels confident that C. W. Andrews, his assistant and candidate to succeed him, is assured of the nomination. As Mr. Andrews has a live opponent in the person of Senator Small, who will contest every inch of ground for the nomination for state treasurer, it is not thought that Mr. Buise will come out in the open and declare himself for any candidate for governor.

Congressman Lorimer, following his usual tactics, is not doing much talking. His attitude on the candidacy of Mr. Denesen is well known and the friends of the latter have not yet attempted to invade the congressman's territory in the organization of clubs. Undoubtedly the usual fight will be made upon Mr. Lorimer, but it is predicted that when the final round-up of delegates is made that he will be found with enemies behind him to be a controlling factor in the nomination convention.

NEW PLACE FOR HOT.
Oswald again has it that J. F. Hoy, secretary of the Republican state central committee, is now to be offered a federal position. A report to the effect that he was to be appointed supervisor of the port of Chicago, to succeed Gen. H. H. Thompson, was circulated the early part of the week. His name was mentioned rather prominently a few months ago in connection with the office of assistant United States treasurer at Chicago and it was thought that the appointment would be made upon the return of President Roosevelt from his western trip. The friends of Mr.

THE GOVERNOR

His appointment to the position of secretary of state, which place would be much more to his liking. If future events are such that Mr. Hoy is not a candidate for secretary, then he may accept the appointment of appraiser.

The resignation of Maj. Dan Hogan as warehouse registrar of the Chicago grain inspection department and its acceptance is taken as conclusive that the major will make the race for secretary of state. He is reported to be laying his wires for the office and getting his political affairs in shape to make a determined fight for it. Should Mr. Rose, the present incumbent of the office, again ask for the nomination the fight in southern Illinois for delegates will be pretty warm. Both of these gentlemen live in southern Illinois and both are shrewd politicians of the Egyptian type.

Jacksonville, Ill., Sept. 25, 1902.—Nearly three years ago, with a second attack of serious illness, I was surprised to learn that I had diabetes. Providentially I was led to procure a bottle of Dr. E. W. Hall's specific for kidney and bladder troubles, known as a TEXAS WONDER. Less than half of the \$1 bottle effected a complete and permanent cure. Consequently I believe it to be a medicine of very great value.

BOOMERS WIN AGAIN

Defeated Bloomington in Sunday Game, Score 8 to 3.

The Bloomington team went up against the locals at West Side ball park Sunday afternoon and were defeated to the tune of 8 to 3. The game was loosely played and errors were numerous on both sides. During the preliminary practice Handchen of the locals, was hit in the mouth with a batted ball, which kept him out of the game. Norris was substituted and covered second in good style, also proving quite handy with the willow.

Dixon, who was on the slab for Bloomington, was taken out after the fifth inning and Kensella substituted. Abernathy, for the locals, pitched a good game, but his support was very poor. Franz had an off day, which is decidedly unusual, as he has been surprising everyone by his splendid record thus far during the season.

Church, an old Jacksonville boy, covered second for Bloomington and was the bright particular star of the visiting aggregation. He certainly looks fast enough for league company.

The game throughout was a listless exhibition of the national sport and was too one-sided to prove interesting at any stage. The usual crowd was in attendance and the locals still wear the laurel wreath of victory. The score:

HUMOR OF THE HOUR

Point of the Ambiguity.

"Do you know," said Mrs. Homestody as she jammed the darned egg into the corner of a perforated sock, "I believe women, all women, have to be born actresses."

"Now, why," retorted Mr. Sedombome as he shifted his glance from the market page to the baseball scores, "why do you say that?"

"Because," she replied softly, "they have to act to let their husbands think they are happy."

"Is that so?" said he, rising and leaning on the mantel. "Well, all I can say is that most married women are bad actresses, at least so far as their husbands are concerned."

"No, my dear," she murmured softly, "it isn't the fault of the acting. Look at the poor audiences most of them have."

And Mr. Sedombome went out on the back porch and kicked the family out all the way across the yard.—New York Times.

THROWN FROM HORSE

William Layman Badly Injured by an Unmanageable Pony.

Harry Layman, who is employed as a cattle driver for Henry Wright, met with a serious accident Monday afternoon about 1:15 o'clock while riding east on East Court street on a fractious Mexican pony. Layman lost control of him when about half way down the street and when Brown street was reached the animal dashed into the Passavant hospital grounds and out by the west driveway. The horse was running at such a furious rate that as he made the turn at this point he fell, throwing Layman violently to the ground. He struck on his head and the horse rolled over a portion of his body. He cut a terrible gash in his forehead just above the left eye, which bled profusely. The accident happened in front of the residence of F. L. Ledford and the latter, assisted by M. W. Morrissey, carried Layman into the former's yard and laid him upon the lawn while Dr. J. W. Hairgrove was summoned. Later Layman was removed to Passavant hospital and was unconscious for several hours, although for a few minutes after the accident his mind did not seem to be affected.

If no internal injuries result he will doubtless be around again in a few days.

ROOSEVELT PRAISES GOVERNOR DUBBIN

(CONTINUED FROM FIRST PAGE.)

(Continued from First Page.) There is one point on which he is clearly mistaken and on which I strongly dissent from his view. He seems to think that the punishment meted out to negroes for certain nameless crimes are punishments especially aimed at them by reason of their color. His misconception arises doubtlessly from the fact the crime is limited most exclusively to the colored race. The punishment knows no distinction of color. White men rarely commit this crime, but when they do the records show it matters little in whatever section it occurs the same punishment usually follows.

FROM ALABAMA'S GOVERNOR.

Atlanta, Ga., Aug. 10.—Governor Terrell to day endorsed the contents of President Roosevelt's letter to Governor Durbin of Indiana in regard to the recent action of Durbin to prevent lynching in that state. He said: "I think President Roosevelt is on the right line and I am in hearty accord with his views."

THE MATRIMONIAL RECORD.

HARPER-HELLIWELL.

A Chicago paper says: "It seems quite appropriate that Love, who always is blind, should meet John Harper and Alice Helliwell in the institution for the Blind at Jacksonville. Mr. Harper is an employee of the state institution. Miss Helliwell is the daughter of a prosperous farmer near by. They met last winter when the young man sang at an entertainment for the Blind. Yesterday they came to Chicago on an excursion and Mr. Harper persuaded his companion that without her life would be all darkness for him, whereas if she consented to become Mrs. Harper his future would be so bright that he would require smoked glasses. 'All right; we'll get married,' said she. The marriage license office was closed, but Justice Murphy was found and he secured the necessary documents. Then he led the young people into his office. 'And do you, John Harper—' 'Wait a minute,' exclaimed Miss Helliwell; 'what are you doing?' 'Marrying you,' answered the justice. 'Not much,' said she. 'I'll have a Methodist minister marry me or I won't be married.' Mr. Harper tried to argue; so did the justice. But Miss Helliwell had made up her mind, and so a Methodist minister was hunted up and the ceremony proceeded.

The young people are well known here in Jacksonville and have the respect and admiration of a great many friends. PHILLIPS-LOTT. Edmund David Phillips and Miss Ella Gertrude Lott, who were married recently by 'Squire Arenz, will leave soon for Los Angeles, Cal., where they will spend the fall and winter.

PAVING TROUBLE

Hearing of Objections to Payment on East Street and Hardin Ave. Pavements.

Parties owning property on Hardin avenue and South East street and who are objecting to the sale of their property for non-payment of their first paving assessment, had a hearing in the county court before Judge Barnes Monday. The evidence for the objectors was concluded and the petitioners then entered a motion to overrule the objections. The court took this and other matters under advisement and the hearing of the case will be resumed next Monday. The objectors are Stephen Knoles, Thomas Knoles, Edward Kitner, Alice M. McGhee, David Spencer and estate of H. G. Whitlock. Their contention is the pavement on said streets is not of the width called for and that it was not laid according to the terms of the specifications.

The attorneys for the petitioners are City Attorney Morrissey and J. J. Reeve; for the objectors, Messrs. J. O. Priest, H. M. Ticknor and W. N. Hairgrove.

ENGINEER KILLED.

Decatur, Ill., Aug. 10.—In the derauling of a fast freight on the Wabash at the Reddick interlocker this morning, Engineer A. Huggstad, of this city, was killed, and several of the crew injured. The accident, which occurred at 3 o'clock on the Chicago division six miles north of here, caused great damage to the rolling stock and some hours were necessary to clear wreckage.

CHARGED WITH FORGERY.

George G. Huffaker, Jr., was arrested in Springfield Monday and placed in jail on a charge of forgery. The warrant for his arrest was sworn out by J. A. Easley, of the First National bank of Springfield, who alleges that a forged check was presented to the bank for payment on July 28. The officers say that the check was only one of a large number uttered by the defendant, in which he used his father's name to procure money.

WABASH LARGE EARNINGS.

For the month of July just ended the earnings of the Wabash road were the largest in the history of the road. Over \$2,000,000 is the excellent record. The earnings for the month just passed were \$2,000,153, against \$1,763,530 for the same month last year. If this rate of increase keeps up the road will earn at the end of the year \$3,839,476, above what it earned the last fiscal year.

Albert McDowell, Frank McDowell and Maude Leland were arrested last night by Captain Kennedy and the night force in a room in the Maier building. They are charged with disorderly conduct.

INJURED HIS HAND.

John Minch was painfully injured at the car shops Monday by a car wheel falling upon his hand. Dr. Black dressed the injured member and it will be some time before he can return to his work.

WILL TRY NEW PLAN.

Washington, Aug. 10.—Postmaster General Payne has decided to make an experiment of employing bagmen on trains not provided with mail clerks to take charge of and deliver open newspaper mail. It is intended they shall deliver papers to those to whom they are addressed at points along the line from car doors, thus saving much time which would be lost in case the papers were enclosed in pouches. It is estimated the cost of the service through bagmen would be much less than if postoffice employees were supplied for all such trains.

WOMAN AND FASHION

White Swiss Blouse.
The finer the material the better it is for blouses this year. The sheer material is given color by elaborate ribbons in the correct corner, finished with a huge bow in front.

The model for a blouse here illustrated is especially becoming in a stout figure. It is put into puffs across the shoulders, with bands of drawn work between, and a collar of drawn work feathered into place. The sleeves are gathered above and below the elbow, finished with a narrow band of drawn work.

FOR AFTERNOON WEAR.

figure. It is put into puffs across the shoulders, with bands of drawn work between, and a collar of drawn work feathered into place. The sleeves are gathered above and below the elbow, finished with a narrow band of drawn work.

Dress Hats.

The most recent development of fancy in hats for elegant dress in summer are those which are made objectively of embroidered mull and lace. The muslin and the laces in these hats show specially designed crown tops and brim coverings, and these in the making up of the hats are stretched tightly and smoothly over the wire frame, the creation being transparent or semitransparent, according to the absence of lining or the character of the lining employed.

A large hat with wide and medium low square crown and brim flaring around the front and drooping at the back, of white embroidered mull, faced with folds of white tulle and the crown lined with a single ply of tulle, the crown and the brim edged with a cluster of tulle folds, has the crown encircled with two smoothly laid bands of folded white satin ribbon, and a little to the left of the front of the crown a tuft of three demilong curling ostrich tips, posed upright and nodding forward.—Millinery Trade Review.

To Prevent Stretching.

Box or side plaits running the full length of the skirt in front and back, with a hip yoke at the sides, are especially favored for the walking skirt, and here again a slight precaution in regard to the unlined skirt will save trouble. A strip of silk lined cloth tucked inside the broad front and back plaits and holding them in place to a point below the hips will prevent a stretching which is almost inevitable without such precaution and would spoil the snug fit of the skirt around the hips.

French Blouse Frock.

One of the most popular styles of the season is a little French blouse frock. It is a style that is easily made and is desirable for thin materials. In the pretty frock illustrated a white vest front and a big collar edged with white ruffles enter into the ornamentation.

FOR A LITTLE GIRL.

The full blouse and square neck are decidedly pretty and childish-looking. The skirt is the full gathered one. The waist line is decorated by a man, with a large bow in the back. The material may be white or colored.

SELECTIONS

A WONDERFUL TREE.

It Has Tarantula-like Blossoms With a Stupefying Odor.

A wonderful tree of unknown variety has been discovered in a mountain canyon in a spur of the San Jacinto mountains, down near the Mexican line. It was discovered by a party of prospectors who penetrated the canyon in search of water. A branch of the tree and its blossoms were brought to this city for classification, but it is unknown to botanists in this city.

The leaves of the tree resemble in size and shape the fig leaf, but they are of a vivid purple color and the under side of the leaf is thickly covered with stiff hairs which stand out from the leaf fully half an inch. These hairs are sharp and thornlike and easily penetrate the skin, and when they do so they are poisonous, causing swelling and much pain.

The blossoms are as peculiar as are the branches and leaves. They are of a rusty red color and are about two inches in diameter. In shape they are a very good representation of the tarantula. There is a huge hairy bulb, in shape resembling the abdomen of the poisonous spider, and there are several chives, or stamens, corresponding to the legs of that insect.

The most peculiar feature of the plant, however, remains to be told. Whenever one approaches the plant or when the wind agitates the branches of the tree the flowers give off an abundance of perfume—heavy, sickening and deadly. This perfume has the quality of chloroform, and a few inhalations of the odor produce unconsciousness. The prospectors who made the discovery of the plant were rendered insensible upon approaching the tree to examine it.

As the plant seems to have no botanical name two names have been suggested by the qualities of the plant itself. One is tarantula plant, the other chloroform tree.—Los Angeles Times.

Control of Surgical Steel.

Many of the best surgeons in New York, including those in the larger hospitals, send their instruments, for repairs to a man in the Williamsburg district of Brooklyn. He has also a contract with the city for repairing surgical instruments for the public hospitals. According to this specialist American made steel has not yet reached a point of perfection that makes it available for a superior class of work. "Surgical steel can be wrought and bought only in England," he said. "The famous surgeons of Berlin and Vienna must send to England for their instruments. In modern surgery, where life or death depends absolutely upon the reliability of the instrument to do exactly the work that the operator expects of it, no surgeon will take chances with knife, scissors or forceps that he cannot depend upon as absolutely as he can depend upon his own nerve—and a man who cannot command his nerves has no more business at an operating chair than a man with no knowledge of navigation has on the bridge of an ocean liner."—New York Times.

Don't Be Afraid to Perspire.

In a hot summer nature takes matters into her own hands. Humanity perspires in spite of itself. In this way an incalculable amount of waste is thrown out through the skin. "You cannot perspire too freely so long as it is a natural perspiration, one not caused by disease," said a surgeon. "The freer the perspiration the less work for the kidneys." It follows, then, that in a cool summer it is advisable to induce perspiration through the medium of vigorous exercise. Granted that it is vastly more comfortable to lounge in shady retreats and watch some one else chase tennis balls under a broiling sun or tramp enthusiastically over the golf links, nevertheless their reward will come later. They will enter the winter, with its more or less necessary confinement, better physically, better mentally.

A Torpedo at Play.

During some torpedo practice in which the Mediterranean fleet has recently been engaged one unruly torpedo performed extraordinary antics.

Fired from the leading ship, the missile ran toward the target for about 100 yards, then suddenly turned and came back, hitting one of the ships in the line. After this the torpedo careened about in all directions, diving, jumping, clean out of the water and performing all sorts of antics like a huge fish at play.

Eventually when all its air was exhausted the erratic torpedo dived to the bottom and was lost.—London Mail.

An Automobile Speedway.

An automobile speedway forty feet wide, inclosed by hedges and wire fences, is planned to run the whole length of Long Island—from Blackwell's Island bridge to Montauk Point—112 miles. The road will cost \$15,000 a mile, or nearly \$1,700,000 in the aggregate. But automobile can afford it, and probably if they run short of funds other citizens will gladly help carry out an enterprise that promises to keep racing machines off the public highways.

The Head Yellow Patch.

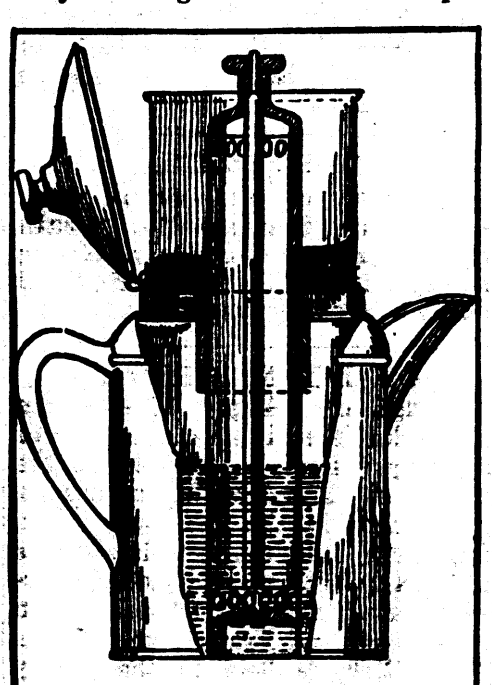

With China opened to commerce, her crowded, unsanitary cities, one of them have either several or many thousands of yellow patches on the heads of their people. Smallpox is always prevalent in them. Cholera is often epidemic, and plague can be found in every large town. These may constitute the real "yellow patch."

FOR THE HOUSEKEEPER

Nuts are a most nutritious food. People who eat fruits freely and pronounce them particularly wholesome often take nuts, and yet these are really fruits and are a very valuable food product. Even doctors recommend them as not only wholesome, but very nutritious. Nuts are considered by some as very indigestible, but if eaten at proper times and in proper quantities they will not injure the most delicate stomach. It is a good thing to eat them during meals and with salt. The salted peanut is almost as much a factor of the dinner as the salted almond and has in its favor its inexpensiveness and its greater proportion of fatty matter. Nuts need very good mastication, which is important in regard to any food. We are told by scientists that "peanuts are very far ahead of almost all or at least a great many nitrogenous foods. Beefsteak has far less nourishment, and even oatmeal, that is universally considered an almost perfect food, does not furnish the nutriment that peanuts do." It has recently been said that peanuts are especially good for consumptives and are also a remedy for insomnia.

Nuts chopped and spread between slices of bread, with a little salad dressing, make a most delicious sandwich for the car lunch or for the school lunch basket; some like the nuts moistened with vinegar; again a crisp lettuce leaf with a little salad dressing and sprinkling of chopped or pounded nuts makes a delicious and most nutritious sandwich.

Percolating Coffee.
While the coffeepot which makes the beverage by percolating hot water through the finely ground coffee is finding great favor, there is some complaint that one infusion does not make the drink strong enough, necessitating the pouring of the coffee from the pot and passing it again through the grounds. The accompanying illustration shows a coffeepot recently designed by a Massachusetts inventor with the idea of removing the necessity for pouring the liquid from the pot preparatory to passing it through the percolator the second time.

PERCOLATOR WITH PUMP.

colator the bottom portion of the pot is filled with the required quantity of water previous to inserting the percolator in the center of the latter, and extending down to the bottom of the pot will be seen a cylinder containing a piston and by raising and lowering this piston the water is pumped from the pot to the top of the cylinder, falling thence on the coffee and percolating through into the lower chamber again. When the liquid has gained the desired strength the percolator and pump can be removed, and the clear coffee is then ready for serving.

Hints For the Housekeeper.
Glycerin is a capital remover of coffee or milk spots from white goods. Paint the stains with glycerin, then wash out the glycerin with lukewarm rain water.

To remove tea stains pour boiling water over them. If of long standing soak until the stains disappear, then wash through several clean waters.

Prints and other colored fabrics that are inclined to fade when washed should be soaked in salt water before being washed in soapsuds. The saltier the water the more likely the material is to hold its color.

Alcohol and water constitute a good washing fluid for fine cut and plate glass. Soaps, cleaning powders and polishing preparations are apt to scratch and dim highly polished surfaces. Only old soft towels should be used for wiping glass.

Ribbons Shades For Candles.
Shades for candles are made of narrow gauze ribbons in a succession of small, caught under loops over gauze covered frames. Two rows of the ribbons form a ruche around the top of the shade, and the edge is prettily finished with a fringe of ribbons, with tiny yellow buds and leaves at the end of each piece. Another set of shades is of the same shape, gauze ribbons in a light tone of pink, with a fringe of lilacs of the valley and pink rosebuds.—New York Mail and Express.

To Clean an Enamelled Tub.
There are several ways to clean an enamelled tub. One that is easy and quick is to pour some kerosene on a cloth, then wash with water and soap. Another method is to take a heating tablespoon of kerosene, mix it with two tablespoons of lye, and scrub the tub with this. Then wash carefully with a clean cloth. Caution is needed in trying this plan to see that the tub is perfectly dry before the salt and turpentine mixture is used.

SO SOOTHING

Its Influence Has Been Felt
by so Many Jacksonville Readers.

The soothing influence of relief After suffering from itching piles, From eczema or any itches of the skin Makes one feel grateful to the remedy. Doan's Ointment has soothed hundreds. Here's what one Jacksonville citizen says:

Anthony Ward, of 1043 North Main street, says: "For fifteen years I was troubled with a severe irritation on my body and nothing I employed brought good results until I procured Doan's Ointment at Dr. H. Lee Hatch's drug store and used it. The effect was prompt and in a short time the trouble was removed. I had also suffered from eczema on my forehead and although I treated for it with physicians they could do it no good. A few applications of Doan's Ointment entirely removed it. This reliable preparation is a true specific for skin diseases."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

NOT OVER-WISE.

There is an old allegorical picture of a girl scared at a grass-hopper, but in the act of heedlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by all druggists.

DYSENTERY CURED WITHOUT THE AID OF A DOCTOR.

"I am just up from a hard spell of the flux" (dysentery), says Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by all druggists.

THE PAINTER-ENGRAVER

Let it be admitted that the work of the "painter" was very different in artistic character from that of the faithful translator; let it be admitted also that it is higher in artistic value. These limitations once stated, it needs to be forced on our notice, that each kind of art is so noble as to see Color interpreting a Poem. You would you not say: A loving sense of nature at work upon a study of the mountain? What are more colorful light and shade but one of the artist's study in "literature"?

President Loubet's visit to London calls the Irish people's claim to him as one of themselves. In their eyes, they hold, is merely a Gallicized Loubett, a name which is quite common in the south of Ireland, and the president's ancestors hailed from the same country.

Education and Business.
Few men went to college a generation or two ago unless they intended to enter one of the learned professions, and the proportion of intending lawyers, teachers, physicians and ministers was pretty uniform in each. But all this is changed. In the sitting class of Harvard this year

Lately, however, teaching together attract about the same number, and only forty-seventy tend to be physicians and about twenty to preach. The significant fact to be noted in these figures is that, in spite of the lure of the almighty dollar, so many more who intend to engage in business than in any other occupation.

Deceased was born in this county near Pisgah in 1860, and has made her home in this vicinity ever since. Prior to her death she had been ill for some time and death came as a release from her sufferings. She was a devout member of the Methodist church. She is survived by her parents and two brothers, William and George Kirby, and three sisters, Rachael and Emma Kirby, and Mrs. Stella Mulligan, of New Berlin.

Funeral services will be held at Providence church Wednesday morning at 10 o'clock, and will be in charge of Rev. Mr. Brown, pastor of the M. E. church at Franklin.

Merchants Will be Asked to Give Employees a Holiday.

The Labor day committee met Sunday morning in a short session to complete arrangements for the Labor day excursion to Decatur. Arthur Kessler was elected chairman to succeed Henry Keefe, who resigned owing to his absence from the city.

A committee consisting of Joseph Brennan, W. H. Brainer and Will Hopper was appointed to wait on the local merchants to ask them to give their employees as far as possible a holiday on Labor day, as many desire to celebrate in Decatur. Decatur promises to turn out in full force and celebrate here in 1904.

AGAINST RESIGNATION

Members of Mt. Emory Baptist Church Wish Rev. H. H. De Witt to Stay.

At a special meeting of the Mt. Emory Baptist church held last night to act upon the resignation of Rev. H. H. DeWitt, who for fourteen years has been its pastor, a very large membership was present. The resignation, which has been in the hands of the church council for several days, was presented to the church and was rejected by the entire membership, only two finding it against their will to vote to retain the present pastor indefinitely.

Rev. H. H. DeWitt came to this church from Gallatin, Tenn., fourteen years ago. He found the church \$3,300 in debt and since his being here he has reduced this debt to \$1,100 and has added scores of members to its rolls. Through his efforts too the interior of the church edifice has been greatly improved. Rev. Mr. DeWitt has his people at heart and has done much to elevate the standing—morally and religiously—of the colored people of this city. He is for the second time moderator of the Wood River association, the oldest and strongest religious body of colored people in the state. He cannot fail to feel the compliment of this vote to retain him.

Idaho Springs, Colo., Aug. 10.—Judge Owens to night issued an injunction against members of the Citizens' Protective league restraining them from in any way interfering with members of the miners' union who were driven out of town just after blowing up of the compressor of the Sun and Moon mine. Immediately after issuance of the restraining order attorneys representing the miners and Western Federation of Miners preferred criminal complaints against members of the citizens' league. Warrants were issued and the sheriff instructed to arrest them.

IOWA KNIGHTS OF PYTHIAS.

Connell, Bluff, Aug. 10.—Five hundred members of the uniform rank Knights of Pythias have assembled at Camp Manchester. A successor to the late General Manchester will be elected tomorrow. The grand lodge Knights of Pythias will meet to morrow.

FUNERALS.

BRYSON.

The funeral of Roy Bryson, who was killed recently by a collision with a street car, was held Sunday afternoon at the family home on Pine street. The services were very largely attended and were especially impressive. Rev. A. L. T. Ewert was in charge and his words were earnest and appropriate. Several hymns were sung by Misses Cora Graham, Mae Ferguson; Messrs. C. L. Hayden and Will J. Moore. Interment was in Diamond Grove cemetery, where the grave was covered with beautiful flowers. The bearers were Clarence Swaby, Howard Alexander, Alvin Edson, Fred Mathers, Frank Mathers and Will Spellman.

Rev. A. L. T. Ewert spoke from 2 Sam. 15:35. He spoke of the surprise in life, saying that we are constantly on the eve of a new surprise. Things for which we are not prepared take place. Disappointments come. The unexpected occurs. Amid these surprises there must be a resolute faith in the ultimate triumph—"all things work together for good to them that love the Lord." A severe bereavement may do one of two things. We may become submissive and draw nearer to God, or we may become hardened and go in the way of rebellion. The latter is wrong. Many of our afflictions come, not as a direct visitation from the Almighty, but as the result of a violation of law. All God's laws are for our good. The very pain and penalty is to conserve life. We are to be judicious, careful and thoughtful. If we violate the laws of health we suffer. God's purpose is that we should keep the laws and attain to health and longevity. So in every walk of life. Yet when affliction comes we may be sure that no one will so speedily move to our rescue as our Heavenly Father. In daily life we see this exemplified. No parent desires the harm of a son, yet how many violate the father's wish and go astray. Should the son return how eager to comfort is that parent. God permits penalty. It must be in a world like ours, but above and beyond all this must appear the gracious, loving, constant outreach of divine sympathy and love for all his children. This is a sad bereavement. Roy was suddenly ushered into the beyond. He was a good, beautiful lad. He was obedient, industrious and willing. A great loss indeed. Let not the parental hearts turn rebellious, but rather more fully trust and rely upon divine aid in all the problems of human life. From the view point of eternity a few years more or less will be of little moment. To begin there a little earlier will not be a loss. There will be a reunion. Through tears and disappointment let the eye of faith see the future. Joy cometh in the morning. We all sympathize with these bereaved parents and trust that God will strengthen and sustain them in this trying hour.

MILK GOES UP AT DECATUR.

Decatur, Aug. 10.—The price of milk is to advance, so say the dairymen. They say that the price will be raised this week and that sixteen quarts will then be considered worth a dollar of any man's money, instead of twenty quarts, the amount now given for a dollar.

The reason for this advance is said to be a scarcity of pasture, or rather a scarcity of grass in the pastures. The dry weather has been hard on pastures. What grass has not been eaten up has been dried up and the supply of milk has been accordingly lessened. The dairymen are feeding hay to their cows, and hay is expensive.

The farmers from whom the dairymen buy considerable milk also complain of a scarcity of grass. They say they must have more money for the milk, for they, too, are feeding hay to the cows.

LYNCHING AVERTED. Nashville, Tenn., Aug. 10.—A triple lynching was narrowly averted in Winchester, Tenn., this afternoon. The intended victims were Henry Judge, Joe Delp and John Evans, and to night after a close call from a mob of 500 they were brought to jail here by the sheriff of Franklin county. The men are charged with the murder, near Winchester, of Simon Booker and wife and cremation of the latter's remains in the Booker home.

WIFE WAS INFORMER. Guthrie, O. T., Aug. 10.—William Henry, who was sent to the Illinois penitentiary in 1901 to serve a four-year sentence for forgery and who escaped shortly afterward, was arrested here to day. He was married here a short time ago and quarreled with his wife, who informed the sheriff of Christian county, Ill., of the whereabouts of the fugitive.

KILLED BY OAVE-IN. York, Pa., Aug. 10.—By the caving in of an embankment of clay at the York brick works to day one man was killed and three perhaps fatally injured.

APPROVED WAGE SCALE

WINDOW GLASS MEN GET 10 PER CENT INCREASE

Differential in Machine and Hand Made Glass—Price Will Be Higher to Consumers—Other Labor News.

Columbus, Ohio, Aug. 10.—The Federation Window Glass company directors met with Simon Burns, president of Local Assembly No. 300 of American Window Glass Workers, to day and approved the wage scale whereby the men receive a 10 per cent increase. A conditional clause in the contract provides the men shall accept a proportionate reduction in wages according to difference in machine and hand-made glass. To night the secretary of the federation gave out a statement to the effect that the low price of glass and increased wages will materially increase the cost of glass to the consumer. Fires will start Oct. 15 and go out May 15. "We will work as long as outsiders do," said the secretary, "and we shall notice that they will not work longer than we will."

ARBITRATION BOARD IN SESSION. Birmingham, Ala., Aug. 10.—The board of arbitration recently selected to consider and adjust differences existing between coal miners and operators of Alabama began its sitting here to day. One of the first duties of the arbitrators will be to decide exactly what is to be arbitrated.

The board of arbitration organized by electing Judge Gray chairman. The operators were represented by former Secretary of the Navy Tracy and other prominent attorneys, while the miners were represented by Edward Lynn, president of the Alabama Mine Workers. It is stated, however, Clarence Darrow, of Chicago, is on the way to act as their counsel. The miners ask increased wages, eight-hour day and semi-monthly pay days. The operators demand a sliding scale, minimum number of working days per month, differential between pick and machine work, that standing of union and non-union employees be specified and collection of union dues and assessments through company offices be regulated.

JEWELERS OUT. New York, Aug. 10.—All work is at a standstill in manufacturing jewelry trade to day, as a result of a lockout by the New York Manufacturing Jewelers' association.

GRANTED DIVORCE.

London, Aug. 10.—D. S. Conbandinidi was to day granted a divorce from his wife, a daughter of Stephen Ralli, member of the firm of Ralli Bros., on the ground her conduct led to misconduct of her husband. The suit raised the question of legality of Dakota divorces in England. The husband charged his wife with bigamously marrying their family physician.
